

We offer both CLI and LCR routes to every single destination on earth. We are extremely strong in Hungary and in central Europe, where we have built direct connections to most of the major national telecommunication companies.

It would be an honour for us to count on You and your company as a wholesale trading partner.

If you would join us, please, send us the routes which you need, estimated volumes, and target rates, and if possible, some of your direct routes. We will analyze your targets, and try to give you the best offer.

The calls are billed in One second increments with a One second minimum (1/1). Our preferred payment method is trafficexchange + 7/3 post payment with reciprocal partnership. Our time zone is CET (GMT+1) but we are able to use any time zone at your convenience. Trading can be based on the following currencies:

USD

EUR

HUF
